**A. REPORT ON A' SEMESTER 2013**

**Period results:**

**a. Period revenue**

Total turnover for the first half amounted to € 51.9 million, which-compared to the same period of 2012 – showed a decrease of € 1.1 million EUR (€ 53.0 million) or 2.1%. This change is due to an increase in revenue of the SLOPS' management by 6.83%, of the water supply by 3.72%, and of the car terminal by 2.95%. An additional increase in revenue by 5.95% was due to the concession of SEP S.A.

On the contrary, a decrease of 12.21% occurred in dock revenue mainly due to the implementation of Law 4072/FEK 86, 11.4.2012 according to which port dues and fees from dock, berthing and mooring which concern Container Terminal II were granted to SEP S.A. from 26.7.2011. In addition a 5.95% and 5.90% decline was recorded in revenues from the container terminal and the cruises respectively.

**b. Expenses**

The greatest and most significant part of operating expenses are staff salaries which reach 53.0% and in the first half of 2013 decreased by 10.2% amounting to € 27.2 million compared to € 30.3 million the first half of 2012. This change is due to the implementation of L.4024/2011 and the staff's retirement.

As for other non-salary costs, they averaged last year figures, with "Third party fees and expenses" showing the greatest rise, since they amounted to € 1.0 million compared to € 0.7 million.

Depreciation showed a slight decrease of 4.9%, amounting to € 7.7 million, compared to € 8.1 million. The consumption of material had a decline of 7.1% and amounted to € 1.3 million in the first half of 2013 compared to € 1.4 million in the first half of 2012.

Provisions were increased by 17.6%, amounted to € 2.0 million in the first half of 2013 compared to € 1.7 million in the first half of 2012. This increase is due to a remarkable decline of the "Provision for legal claims by third parties" by € 1.5 million, and to the fact that a "Provision for contribution to TAPIT due to voluntary retirement" of € 1.9 million was estimated during the first semester of 2013.

**c. Total Liabilities**

Total liabilities at June 30, 2013 amounted to € 224.5 million, lower by 1,97% (€ 229.0 million at December 12, 2012).

The decrease in total liabilities was mainly due to the reduction of the following sub-headings, namely: a reduction in deferred income (concession revenue) by the amount of € 2.8 million, a reduction in "accrued and other current liabilities" by the amount of € 3.5 million (mainly due to the decrease of the liability to the Deposit and Loans Fund, upon application of Decision 63/2013 of the Supreme Court on mandatory offsetting of the relevant amounts with receivables. This decision interpreted the L.2881/2001, whereas the offsetting regards to equal debts of the ship-owner companies), an increase of provisions by the amount of € 1.9 million (mainly due to the "Provision for contribution to TAPIT due to voluntary retirement" amounted to € 1.9 million), as well as the increase in income tax.

**Critical Index numbers:**

	A' Semester 2013	A' Semester 2012
GENERAL LIQUIDITY (Current Assets / Short-term Liabilities)	3.62	3.01
QUICK LIQUIDITY [(Current Assets – Inventories) / Short-term Liabilities]	3.52	2.92
EBITDA (EBITDA / Turnover)	0.21	0,20
DEBTS (Banking Liabilities / Own Funds)	0.56	0.58

**B. Highlights of the First Half**

In the cruise sector, the Company applies competitive pricing policy and progresses rapidly over the infrastructure and superstructure to reinforce Piraeus as a cruise hub. The International Cruise Passenger Terminal B' "Themistoklis" is already in operation, A' Cruise Station "Miaoulis" was upgraded, whereas the construction of a new cruise quay in "Agios Nikolaos" have been approved.

The Award event of the International Architectural Competition for the conversion of the SILO building and the surrounding area into the Museum of Underwater Antiquities, a project that is part of the global grid projects of the Cultural Coast of Piraeus, was completed at the Stone Warehouse of PPA SA, where prizes and distinctions were handed out. The goal of the project is, among others, the development of an area of 180,000 m2 into a portal of Culture and Tourism for the residents and the visitors and the increase of the Company's profitability through the cruise passengers.

EN ISO 9001:2008 και EN ISO 14001:2004 were handed out by Lloyd's and Bureau Veritas and implemented at the cruise sector.

In the presence of Minister of Shipping and Aegean Sea Mr. Miltiadis Varvitsiotis and the President of Cosco Captain Wei Jiafou, a Memorandum of Cooperation was signed between the President and CEO of PPA SA, Mr. Georgios Anomeritis and CEO of PCT SA Captain Fu Cheng Qiu, for the signing, within one month, of a settlement under the Concession Agreement (Law 3755/09) for the construction and management of the West Pier III of SEMPO.

The final settlement is subject to the collegial bodies of the two companies (Board, General Assembly), the approval of the Court of Auditors, the European institutions and the Greek Parliament.

The project involves:

- a) the construction of the West Pier III, which currently does not exist, since in this area there is sea
- b) the oil jetty, which will be constructed on behalf of PPA SA and will have its manage and
- c) ports of corporate social responsibility on behalf of the Municipality of Perama (Armos and Marina "E").

The total financial package for the project will be considered together by the Settlement Committee and experts from both sides.

PPA SA estimates that there will be significant benefits for the Authority, while these decisions are strengthening its views on privatization through concessions.

### **C. Prospects and Expected Developments, Main Risks and Uncertainties in the Second Half.**

The ongoing European and domestic financial crisis coupled with the recession which the country has entered, has a significant negative impact on imports and hence the movement of domestic cargo.

The Company, in return, has implemented an aggressive policy of attracting customers to the container terminal, already being implemented both by signing the contract for transit cargo with Mediterranean Shipping Company (MSC), the second largest container handling company, and the inclusion of Norasia to the special invoice charge per volume scale.

Simultaneously, the Company continues to intensively study ways to extend the car terminal space which records a significant increase in transit cargo with very positive prospects for the future and is already in contact with significant customers in order to extend and expand their existing cooperation.

Furthermore, the in-port freight car transport station project by ERGOSE S.A. in the N. Ikonio was completed, creating higher growth prospects for the Company.

In the cruise sector, the Company applies competitive pricing policy and progresses rapidly over the infrastructure and superstructure to reinforce Piraeus as a cruise hub. By the end of 2013 the construction of a new cruise quay will be completed, whereas with the operation of two new cruise ship berthing locations, the total number of cruise berths will rise to 11 in 2014, and after approval by the EU and new platforms for new generation vessels (2-3) even with a subsidy of 95%, the positions will increase by 2016 to 14 berths, making Piraeus the largest hub for cruise ships in Europe and the only large modern hub in the Mediterranean.

## **2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS:**

### **(a) Basis of Preparation of Financial Statements:**

The accompanying interim condensed separate and consolidated financial statements that refer to the period ended on June 30, 2013, have been prepared in accordance with the International Financial Reporting Standard (IFRS) 34 "Interim Financial Reporting".

The accompanying financial statements do not include all the information required in the annual financial statements and therefore should be examined in combination with the published annual financial statements for the year ended 2012, which are available on the internet in the address [www.olp.gr](http://www.olp.gr).

As indicated in Note 5 to the two subsidiaries are not consolidated in the consolidated financial statements of the Company due to the immateriality of their financials. As the Company has no other subsidiaries, amounts in the financial statements of the Group are identical to those financial statements.

The preparation of financial statements according to the IFRS requires estimations and assumptions to be made by the management, influencing the assets and liabilities amounts, the disclosure of potential receivable and liabilities as at the financial statement's date, as well as the revenue and expenditure amounts, during the financial period. The accounting policies adopted are consistent with those of the financial year ended December 31, 2012. Actual results may differ from these estimations.

Certain line items of the previous period financial statements were reclassified in order to conform to the current period's presentation. Specifically:

- For the fiscal year 2012 the amount of € 2,913,490.97 was reclassified from "Cash" to "Restricted Cash" (note 10).
- For fiscal year 2012 reclassified the amount of € 1,500,000.00 of the item "Provisions" in the item "Income taxes payable" which regards the provision for tax audit for the fiscal years 2009 and 2010.

### **(b) Approval of Financial Statements:**

The Board of Directors of Piraeus Port Authority S.A. approved the interim condensed financial statements for the period ended at June 30, 2013, on August 28, 2013.

### **(c) Significant Accounting Judgments and Estimates:**

The Company makes estimates and judgments concerning the future in order to select the most appropriate accounting policies in relation to the future development of events and transactions. Estimates and judgments adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the annual financial statements for the year ended December 31, 2012.

### **3. PRINCIPAL ACCOUNTING POLICIES:**

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements, are consistent with those followed in the preparation of the annual financial statements of the Company for the year ended December 31, 2012, except for the adoption of new standards and interpretations applicable for fiscal periods beginning at January 1, 2013.

#### **New standards, interpretation and amendments adopted by the Company**

Several new standards and amendments apply for the first time in 2013. However, they do not have a significant impact on the annual financial statements or the interim condensed financial statements of the Company and the Group or they are not applicable for the Company.

- **IAS 1 Presentation of Financial Statements (amended) – Presentation of Items of Other Comprehensive Income**
- **IAS 19 Employee Benefits (revised)**  
Until 31 December 2012, the Company's policy for unrecognized actuarial gains and losses was to recognize them over the average remaining service - service period of active employees and included as a component of net pension cost for a year if, at the beginning of the exceed 10% of the projected benefit obligation. This option was permissible under IAS 19 (before revision). Under the revised IAS 19, the unvested past service costs are recognized in profit or loss in the earlier of the date such change and the date of recognition of the cost of the restructuring or termination. The Company had no unrecognized gains or losses at December 31, 2011 and 2012, therefore the change in policy had no impact on the financial statements of the Company and the Group.
- **IFRS 7 Financial Instruments: Disclosures (amended) - Offsetting Financial Assets and Financial Liabilities**
- **IFRS 13 Fair Value Measurement**
- **IFRIC Interpretation 20 Stripping Costs in the Production Phase of a Surface Mine**
- **Annual amendments of IFRS's 2009-2011**

No additional standards except for IFRIC 21, IAS 36 and IAS 39 listed below, interpretations and amendments have been issued but are not yet effective other than those disclosed in the financial statements for the year ended 31 December 2012. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

- **IFRIC Interpretation 21: Levies**  
Effective for annual periods beginning on or after 1 January 2014. The Interpretations Committee was asked to consider how an entity should account for liabilities to pay levies imposed by governments, other than income taxes, in its financial statements. This Interpretation is an interpretation of IAS 37 Provisions, Contingent Liabilities and Contingent Assets. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event (known as an obligating event). The Interpretation clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. This amendment has not yet been adopted by the EU. The Company's management estimates that the affect on the financial statements of the Company and the Group's application of the amendment will not be significant.

- IAS 36 Impairment of Assets – Recoverable Amount Disclosures for Non-Financial Assets:**
- This amendment is effective for annual periods beginning on or after 1 January 2014. In developing IFRS 13 the IASB decided to amend IAS 36 to require the disclosure of information about the recoverable amount of impaired assets, particularly if that amount is based on fair value less costs of disposal. In particular, instead of requiring an entity to disclose the recoverable amount of an asset (including goodwill) or a cash-generating unit for which a material impairment loss was recognised or reversed during the reporting period, the amendment made to IAS 36 required an entity to disclose the recoverable amount of each cash generating unit for which the carrying amount of goodwill or intangible assets with indefinite useful lives allocated to that unit is significant in comparison with the entity's total carrying amount of goodwill or of intangible assets with indefinite useful lives. This amendment has not yet been endorsed by the EU. The Company's management estimates that the affect on the financial statements of the Company and the Group's application of the amendment will not be significant.
- IAS 39 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting (amendment):**
- This amendment is effective for annual periods beginning on or after 1 January 2014. Under the amendment there would be no need to discontinue hedge accounting if a hedging derivative was novated, provided certain criteria are met. The IASB made a narrow-scope amendment to IAS 39 to permit the continuation of hedge accounting in certain circumstances in which the counterparty to a hedging instrument changes in order to achieve clearing for that instrument. . This amendment has not yet been endorsed by the EU. The Company's management estimates that affect on the financial statements of the Company and the Group's application of the amendment will not be significant.

During the period from January 1, 2013 until June 30, 2013, the total investments of the Company's tangible assets amounted to € 1,451,565.50 and referred mainly to the improvement of port infrastructure (at June 30, 2012 amounted to € 3,654,703.06).
