CLARIFICATIONS

Procurement of two (2) Inverters 90KW 400V for ESC350W Straddle Carriers

Question 1

Regarding subject project with closing date of 04-03-2026, we would like to inform you that the requested Kalmar inverter, **p/n JP108211**, is no longer available as a new component.

It has been officially replaced by part number **JP108211A**, which corresponds to a Kalmar Reconditioned Exchange Unit.

Kindly advise whether the reconditioned Kalmar unit, **p/n JP108211A**, is acceptable

Response 1

The new code spare part is acceptable under the provision that the spare part is fully interchangeable with the requested.

Question 2

Για την απρόσκοπτη συμμετοχή μας, θα θέλαμε να μας διευκρινίσετε, αν ενδιαφέρεστε να αντικαταστήσετε την μονάδα inverter εξολοκλήρου ή αν θέλετε να αντικαταστήσετε μόνο το power module ,όπως αναγράφετε και στο description της πρόσκλησης :**Inverter Power Module, p/n JP108211** (SPMD 1401 90KW 400V) suitable for Straddle Carrier Kalmar ESC350W (s/n: 4899, 4900, 4901, 4902).

Καθώς αυτό αποτελεί μέρος του Inverter, είναι μονάδα ισχύος και όχι ολόκληρο το Inverter.

Response 2

The Power module of the inverter is requested according to the manufacturer's part number.

You may find relevant photo with the label attached to the inverter.

The Control module of the inverter is not requested.
