Subject: Clarifications to the interested parties, regarding the Call for Tenders for the procurement of one (1) powered- engine 33ton forklift truck, for the coverage operational needs of Container Terminal Department in the Framework of the Mandatory Enhancement: M.E.06.

Interested parties are kindly requested to refer to all clarifications published and provided by PPA, regarding the questions received until 14January 2020, in relation to the subject tender.

The said replies constitute an integral part of the Call.

QUESTION 1:

- “ • The tender requirement mentions: The engine powered 33 ton forklift truck will be capable to handle unitized cargo and containers. Is this 20 foot containres only or do you also want to handle 40 foot containers? Do these 40 foot containers also have a weight of 33 tons?*
- How high do you need to lift the containers? As for a 40 foot laden container we need to pick the container up from the top side with an fork mounted container attachment and with 4000mm lifting height of the of the forks you can only lift the container +- 1 meter form the ground as you need to deduct the container height form the fork height plus some additional lost height from the attachment.*
- “*

ANSWER 1:

1.1.: There is no specific mention of sizes of containers or extra lifting attachments in the tender.

1.2.: Regarding the lifting height, the tender clearly mentions the required minimum height.

Please visit regularly PPA SA website, in order to be promptly informed about the above-mentioned tender.
