Procurement of the following services:

α.α.	Description	unit	quantity	budget unit price	budget
1	Services for the replacement and alignment of Main Hoist coupling of QC N°6	pcs	1		
				Total	
				Plus VAT 24%: €	
				GRAND TOTAL: €	

Notes / Remarks

The services consist of the replacement of the old Main Hoist coupling (between left wire rope drum & gear reducer), installation of the new, and alignment.

The replacement will be performed at the premises of PPA S.A. Container Terminal - Pier I on QC N°6.

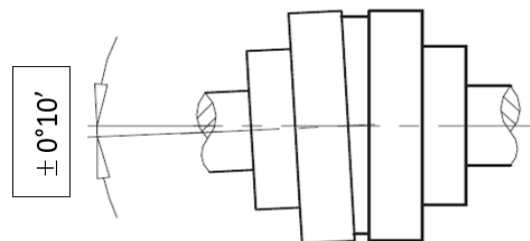

The coupling will be provided by PPA S.A. Manufacturer of coupling MALMEDIE ANTRIEBSTECHNIK GMBH, reference ATTXs 42.

Candidates should provide with evidence within their offer, experience in the alignment of similar types of equipment for the past five (5) years.

Candidates should submit with their offer, the list of their own measurement instruments required for the alignment. The instruments should be also calibrated.

Candidates are not allowed to subcontract the measurement of alignment.

Possible misalignments

Before the beginning of work, PPA S.A. will disassemble the wire ropes from the drums.

All auxiliary equipment such as power supplies, working access, lighting, etc. shall be provided by PPA S.A.

The contractor must abide by all relevant health and safety regulations according to Greek law and any other port regulations that are provided by PPA S.A.

The winning bidder must submit a relevant insurance policy for third party liability including damages to PPA S.A. equipment and personal injury. The winning bidder will have to submit, at its own expense, a proper insurance coverage which will be in force throughout the period of the works, of a minimum of EUR 500.000 (limit of indemnity) cumulatively, against any and all damages arising out of this works, to PPA S.A., as part of the activities and duties hereby undertaken by the winning bidder, in accordance with the terms and provisions that will be in the relevant agreement between the two parties. In the relevant insurance agreement, both PPA S.A. and the Greek state must be co-insured".

The winning bidder must visually inspect the crane and provide a lump sum amount in his/her offer for the above works.

Requested time for the replacement and alignment of the coupling will be maximum (5) calendar days.

Delivery terms: DDP Terms - PPA S.A. CONTAINER TERMINAL - PIER I Neo Ikonio Greece.

Payment terms: Two (2) months upon invoicing (deposit to supplier's bank account) and following the final acceptance of the works by PPA S.A.
